BUSINESS DESCRIPTION

ReWire professionals specialize in the intersection of engineering, technology, and finance as it relates to designing renewable energy and energy efficiency solutions. The ReWire Group is comprised of two primary divisions, **ReWire Energy** and **ReWire Digital**.

ReWire Energy is our Energy Advisory segment focused on providing energy optimization services for Commercial, Industrial and the Municipal, University, School, and Hospital (MUSH) markets.

ReWire Digital is our digital services segment focused on platform technology development and mobile applications for ReWire’s Energy, Education, Industrial and Advanced Manufacturing and Healthcare customers.

CLIENTS/STRATEGIC PARTNERSHIPS

PAST PERFORMANCE

Imperia Engineering Partners – NYPA Energy Efficiency Projects
Selected as an Implementation Contractor to provide energy audit, and design & engineering services for the Energy Services Statewide Program for the New York Power Authority (NYPA)

PA Consulting Group, Inc. – Long Island Power Authority
Contributed to the report on the emergency response training of emergency preparedness and training to US utilities

ReEnergy Holdings – Solar Economics
Analysis to determine economic and strategic viability of proposed solar arrays

Rock City Development – Solar plus Efficiency Conservation Measures
