Incorporated in 2015

100% Minority Owned

TAX ID: 81-0704817

D-U-N-S: 06-000-0677

COMPANY CERTIFICATIONS

NYS Certified MBE

File ID#: 61865

Awarded: July 24, 2017

NY & NJ Minority Supplier Development Council (NMSDC)

Certificate #: NY21247

Awarded: September 15, 2021

PROFESSIONAL CERTIFICATIONS

BPI Business Analyst/Envelope Program Management (PgMP) Project Management

NYSERDA Approved – Clean

Energy Training Firm

Category B: Renewable Electric Power Generation

Category C: Grid Modernization and Energy Storage

Supported NAICS Codes

541690 – Technical Consulting Services (Primary Classification)

541511 – Custom Computer Programming Services

541512 – Computer Systems Design Services

TECHNICAL EXPERIENCE

Operations & Engineering

- Electric Utility & Power Generation (20+ years)
- Systems Engineering (10+)

Technology & Design

- Software Design and Delivery (50+)
- High Technology Manufacturing (35+)
- Supply Chain Automation (15+)

Financial Analysis

- Corporate (20+)
- Municipal (10+)
- Energy Finance/Modeling (6+)

CORE COMPETENCIES

Energy Advisory firm offering consulting, staff augmentation services to support tailored short and long-term commercial, industrial and municipal requirements.

- Energy Consulting
- Building Performance
- Bundled Service Offerings
- Application Development

PAST PERFORMANCE

Imperia Engineering Partners – NYPA Energy Efficiency Projects

Selected as an Implementation Contractor to provide energy audit, and design & engineering services for the Energy Services Statewide Program for the New York Power Authority (NYPA).

PA Consulting Group, Inc. – Long Island Power Authority

Contributed to the report on the emergency response training of emergency preparedness and training to US utilities.

ReEnergy Holdings – Solar System Economics

Analysis to determine economic and strategic viability of proposed solar arrays.

NY CREATES – SUNY RF

Developed new website and lead management and marketing teams through rebranding and digital transition.

SUNY Poly Advanced Manufacturing Performance Center (AMP)

Built Technology Advancement Platform (TAP) and a Career Advancement Platform (CAP)

SUNY Polytechnic and College of Nanoscale Science & Engineering (CNSE)

selected ReWire to assist with measurement & verification (M&V) strategy and planning services used for evaluation and performance optimization of the Zero Energy Nanotech Building (ZEN), the largest zero-energy capable, mixed-use facility in the United States.

CLIENTS/STRATEGIC PARTNERSHIPS
